About me

I am a versatile specialist in mobile application development, with experience working in backend, databases, neural networks, and team leadership. With three years of commercial experience, I have participated in the development of projects of various scales and complexity, including B2B, social networks, e-commerce, and educational platforms. I have worked in companies of different levels such as Yandex LLC, Intertech Services AG, Rintech, and IThub Dev Center. Recently, I have been focusing on building a great Flutter team, writing articles about development, and public speaking. I also actively support the open-source developer community.

Skills

- Mobile Development (Flutter, Kotlin, Swift)
- Backend (C# ADO.NET, Go, Dart, Python)
- SQL Databases (MS SQL, MySQL, PostgreSQL, SQLite3)
- Special Tools (Git, Linux, Docker, Docker-Compose, Kubernetes, Make)
- Project organization (Agile, Scrum, Kanban)
- Copywriting & Story writing

Features

Ready to relocate, ready for business trips.
Ready for remote & office work.
Looking for an opportunity to speak publicly

Languages

Russian (Native)

English (B1)

Experience

LLC "Rintech"   2022
Junior Flutter developer

Successfully designed and implemented a mobile application for a social networking platform. Collaborated with a team of developers and designers to bring the project to fruition.
