## ABOUT ME

---

I am a mobile app developer, specializing in Flutter. I am very interested in microservices architecture, programming language designs, team building and public speaking. I have experience in developing native plugins, creating and publishing my own libraries, and programming in C++.

## EXPERIENCE

---

### Developer | ООО "ИТ ХАБ"

December 2023 - June 2024

- Created and developing a mobile application for an information and educational platform (DAU 2,7k, [Google Play](#), [App Store](#)).
- I lead a team that develops mobile applications.

### Intern-Developer | ООО "Яндекс.Такси Технологии"

January 2023 - May 2023

- Participated in the integration of the Yandex Bank service into the Yandex Pro mobile application.
- Developed a user interface for monitoring the quality of telephone calls in poor connection conditions.

### Developer | ООО "ПИНТЕХ"

June 2022 - September 2022

- Developed an MVP project for social interaction of users to participate in a government grant.

## EDUCATION

---
